

# CURBSIDE CRAFTS FROM THE PROVIDENCE ATHENÆUM'S CHILDREN'S LIBRARY

## GO FISH!

*Here are two little fish that you can "catch" without a boat or even water!*

### Supplies in kit

- two cardboard fish forms
- googly eyes
- string for fishing line
- blue circle

### What you'll need from home

- colored markers, crayons, or paint
- a small magnet or fridge magnet
- four paper clips for each fish
- a stick for your "fishing rod" (I used a chopstick)
- tape, if needed

### Directions

1. Color the fish on both sides.

2. Slide the paper clips on to the noses of the fish. Tie or tape the string to the stick and the magnet to the other end of the string. I used a refrigerator magnet and tape.

3. Place the blue circle on the floor and the two fish on the circle, and use your fishing rod with the magnet to catch those fish!

## **BOOK RECOMMENDATIONS**

*Fishing at Long Pond* by William T. George

*A Different Pond* by Bao Phi

*The Secret River* by Marjorie Kinnan Rawlings

*The Little Fish That Got Away* by Bernadine Cook

*More Mr. and Mrs. Green* by Keith Baker
